3rd Key - **Create** . . unlocks the door to **ACTUALIZATION**

Objective: *To bring seemingly unrelated pieces of information together in a common arena fosters the energy of creativity. You will be bringing together elements, factions, and perspectives that comprise the synergy of manifestation. We want you to know that it is a natural human process to immediately go to the TO DO list, or activities or actions to accomplish a goal. In this module, you are learning how to create from the energy of a Vision. Therefore, the process needs to be done in reverse of normal activities. "First see the fire, then strike the match." In order to get out of left brain logic (the TO DO's), you must go to right brain to access your creativity. Goals are left brain, Vision and creativity are right brain. Now you will have fun and play again – right brain likes to play. **Watch Module 3 Video: 3rd Key - Create***

There are 2 methods we use to *create*. One way is to be inspired with an original thought or stream of information. This originates from the greater part of our being, our super consciousness. This process is called INSPIRATION.

The other way you *create* is to become aware of the elements in your environment. You will use this ability to gather seemly related or unrelated elements and pieces of information and then bring them together to *create*. This process is called INNOVATION.

Both of these *creative* abilities can be referred to as alchemy, changing something from what it is, to *creating* something new. Example: Change your beliefs from “dealing with life, to *creating* your life.”

Many inspired writings refer to us as being *co-creators* of our life. We and the higher source of who we are connected to (God), *create* our lives either unconsciously or consciously. *Create* is the ability to actualize something new; learning this knowledge and developing our skills of this Key aligns us to become a *co-creator* of our destiny.

STAR Power

Objective: Our objective is to engage your intuition, the right brain, to give you intuitive answers to very important questions. This exercise is designed to be fun, playful, insightful, and extremely powerful. *Watch Module 3 Video – STAR Power*

Look at your top 5 Core Passion® Codes (in profile report). Place each Code where you sense it should go on a point of the STAR. Each point has meaning and even though you don't know yet what it means, your intuition does! (If you have 6 top Codes, place the 6th Code on the STAR wherever it feels right.)

Connecting to the STAR Points of Power

Objective: *Your intuitive right brain has provided logic to your practical left brain. This exercise becomes very important for the left brain to begin to trust the right brain that it really does know the answers to powerful questions. The left brain gets the Ah Ha's and believes they can work together. It's magic!*

1. *Believe – This is a key point to know that your belief begins with this Code. Everything you do gets processed through this code first. It is at the Core.*
2. *Giving/Sharing – This Code you sense and do naturally as you interact with others.*
3. *Receiving/Allowing – This can be the most challenging point. It is difficult for you to receive this – usually you are giving it.*
4. *Past Use – This Code has been your default, something you have always relied on. This is where you go. A Code on this point doesn't mean you won't use it anymore, it means you will use it differently than you have in the past.*
5. *Future/Walking into – this is what you are developing – a new energy you will use as you move into 2016.*

What roles will my Codes take in 2016?

Roles of My Codes

Objective: *The objective of the Roles of my Codes is to put words to the Codes in the perspective of the points on the STAR. As you learn the art and science of manifestation, the purpose of this exercise is to start building a language to empower you to communicate with others and with your inner self.*

Watch Module 3 Video – Roles of My Codes

What is the roles of your top 5 Core Passion® Codes in creating your Vision? List a word or phrase that describes the role to your Codes in relationship to where they are on the points of your STAR.

Example: I believe I am creative, clear and confident in who I am and what I do (Recognition)!

I believe I am

I give/share

I am receiving/allowing

In the past I have relied on

I am stepping into

What are the messages from my collage?

Messages from My Vision Collage

Objective: *The objective of this exercise is to anchor what your intuition has prompted you to become aware of with the **pictures**, **symbols** and **colors** you have placed on your collage. Here again you are building a trust between the left brain and the right brain by taking intuitive messages from your right brain(collage) and applying logic and application for the left brain to use in creating your Vision and Action Plan. This again builds a balance between the left and right brain as they learn to work together to create their new reality.*

What I see:

What others see (ask a friend):

What do I believe?

How do I decode my collage?

Core Passion[®] Vision Collage Decoder

Objective: *The purpose of the Decoder is to dissect the collage with a very old Chinese System known as the Bagua. This system has been used for thousands of years to help us understand the energy and the message of spaces in our environment. Your Collage has become the environment of your Vision. By using this Bagua process, you will better understand why your intuition has placed certain pictures and symbols in the definite areas on your Collage. Everything has a purpose and meaning. Soon you will understand what you already knew. Creativity and logic (left and right brain). **Watch Module 3 Video – Vision Collage Decoder***

Directions to decode your Vision Collage:

Cut 4 strings of red yarn (about 6 feet each). Tie around the collage to create 9 windows. If this was a house, how would you get in? Which side would you enter, where is the front door?

After you've decided where the front is, look at the Vision Collage Decoder on the next page. Place the map in position with the front door. Now look at your Vision Collage with new perspective based on each window of the Decoder.

We encourage you to frame your Vision Collage and hang it where you will see it every day. By framing it, you are investing in your future by giving it value and a solid foundation for your Vision. (Frames can be purchased at craft stores.)

"It is through symbols that man consciously or unconsciously lives, works and has his being."

Create – putting the elements together

Objective: *The objective is to use the information from many different sources of who you are and what you want that you've accumulated from the right brain creativity and left brain logic and strategies. The secret of creating is merging these two power sources (left and right brain) together by valuing and utilizing all the information that has been accumulated. Following the instructions on this page and creating a paragraph about your Vision starts the magic of actualization. Write the 2nd draft of your Vision.*

Watch Module 3 Video – Putting the Elements Together

This is where the fun part happens. If you let the “child” in you come out and play, you can really enjoy this Key. Together we have developed a puzzle for you to assemble. There are several elements you will be using to create a clear picture of your vision. (*First see the Fire, then strike the match.*)

Remember you are playing with innovation and alchemy, creating something new! In this Key you are creating a *picture or vision of who you are and what you want.*

The elements of the puzzle you will be playing with are:

- **Who I am** – Core Passion® Codes, Power Number
- **What drives me** – Roles of the Codes (STAR)
- **What I want** – Vision of My Future meditation, Focus for My Vision (Focus 4), Vision Collage, Feelings

Now it's time to put the puzzle together. **Your mission is to put into your Vision the elements you desire to accomplish in 2016.** Your Vision will be driven by the Core Passion® energy that has always driven you. Using the Core Passion® System, you will create your Destiny. Use the *I Create My Vision Template* on the next page to put the elements together.

Here is an example of how I am creating my Vision for 2016 (Wes):

I am a **confident (Recognition)** leader, working with seekers to empower them to become more confident with expressing who they really are. I am **accepting my power (Service)** to influence, teach, and empower all who are ready to learn the art and science of manifesting. I am **connecting creative ideas (Creativity) to achieve practical results (Mastership)**. I continue to **expand my knowledge and skills (Recognition)** as I listen to my inner spirit for guidance. I am passionate to share the wisdom I have learned so others can manifest their dreams.

Note* The words and phrases **highlighted in red** are energy words pulled from his awareness of connecting to his Core Passion® Codes. This is the core energy he will use throughout this year to accomplish his Vision.

I Create My Vision *Template*:

Use any or all of these elements to write and develop the 2nd draft of your Vision as if it has already happened.

Who I am

- Use any words and phrases you resonate with in your top 5 Core Passion® Codes
- Your Power Number is your identity, use words to describe who you are

What drives me

Roles of My Codes STAR (use any of these CP Code energies)

- I believe I am _____
- In the past I have relied on _____
- I give/share _____
- I am receiving/allowing _____
- I am stepping into _____

What I want

- You can use any information you received in your Vision of my Future meditation
- Use the word from the Focus 4 about what you want and how you feel
- Implement information you gleaned from studying your collage before and after you decoded the information
- How you want to feel when you accomplished your Vision

In Module 4, we will create mindful actions to accomplish your Vision with your intention of being in the flow of your natural timing and alignment with your personal and global time lines.
