

Intentional 2017

The Art & Science of creating your future

November 2017

Listen and Learn

The last 3 months of your year are vibrating with a much higher double-digit vibrational frequency than the first 9 months of the year. From January through September you were experiencing the single digit energies of 1-9. The first 9 months are designed to create a vibration for you to learn how to thrive and survive in your everyday world.

Numerology reveals that every year from October through December, you are experiencing the higher vibrational double-digit energies. You are being encouraged to explore the power of living in this world of passion-filled experiences. While this is happening, you are also accessing the light filled energies of your intuitive spiritual world to better align with your inspired higher purpose.

November's Master Number 11/2 energy resonates for you to access and develop your intuitive skills. Your intuition connects to your subconscious mind; this is where the non-thinking mind lives. Your non-thinking subconscious mind does not use logic, strategy, or reason to provide information for you. Your thinking mind uses the neocortex part of your brain and your intuition uses the amygdala part of your brain. These 2 parts of your brain must develop a way to understand and communicate with each other; this can be difficult because the amygdala part of the brain does not have a language!

Numerology's wisdom is encouraging you to *listen and learn* about the greater gifts you have access to when you quiet your thoughts and listen to your intuition. This listening ability becomes enhanced every year in the eleventh month (11), November. Numerology says, when double-digit master numbers appear your life, (11, 22, 33, 44, etc.) your intuitive inner spirit and your everyday world are more closely aligned to communicate and support each other. Also, your angels and guides have a greater chance to get your attention so they can guide and support you.

This year, think of November as a pregame practice for you to embrace and develop your *listening and learning* skills. Numerology's wisdom wants to make sure you are aware that 2018's vibrational energy $2+0+1+8$ is also 11/2. Next year, you will have 12 continuous months to practice, learn, and develop the art and science of *listening and learning* to your intuitive self. You get the whole year to develop your communication skills with your intuitive inner spirit, your angels and your guides.

You also need to know, this powerful mystical physical/spiritual yearlong energy of 11/2 alignment rarely happens. The last time this powerful yearlong 11/2 vibrational alignment happened was 2009! Before that it was very rare to experience a continuous 11/2 vibrational yearlong experience. Look at how rare this is and when it last happened - 1910, 1901, 1820, 1802, 1730, 1703, 1640, 1604, 1550, 1505, 1460, 1406 etc. I believe we are being offered more opportunities today to *listen and learn* than ever before. Now is the perfect time for all of us to awaken to who we really are so we can become more aware of our true purpose in life!

The good news is this 11/2 vibrational alignment is happening again in 2027. So if you get too busy thriving and/or surviving in 2018, you only need to wait until 2027 to take advantage of this physical/spiritual alignment to get you connected to your natural flow of the Universe.

Best days to *listen and learn* in November are:

November 1-30.

~Wes Hamilton, Master Numerologist

November provides a very special vibrational energy for you to learn the art and science of *listening* to your intuitive inner voice. November vibrates with the Master Number 11/2. This powerful energy creates a vibration to align you with a connection to your higher mind. This year, November's vibration will be like a pre-game for 2018. Next year you will be able to experience the 11/2 alignment energy for a continuous 12 months, because 2018 adds up to 11/2. This month we will look for ways you already are aligned and explore new ways for you to practice becoming more skilled in the ways of the masters.

Master Number 11/2

The powerful Master Numbers have a vibration that encourages you to align with your higher self. Your higher self vibrates at a frequency much higher than the frequency of the average human body and everyday conscious mind. I refer to these vibrations much like AM/FM (everyday) frequencies compared to VHF/UHF (spiritual) frequencies. These frequencies are unable to communicate with each other unless one of them generates a higher or lower frequency to allow the other to understand and communicate. This month you will access and develop your intuitive skills.
